PROJECTS / OPEN-SOURCE

My Portfolio — *HTML, CSS, Javascript, AOS animations*
- Designed and developed a personal portfolio website showcasing my front-end development skills.
- Transformed a static portfolio into an interactive platform, reflecting my commitment to staying current with industry trends

Expense Tracker — *React, JSX, CSS*
- The Expense Tracker is a financial management tool that allows users to monitor and manage their daily expenses and income. It provides a convenient way to gain insight into one's financial health, make informed financial decisions, and budget effectively.
- This project aims to offer a user-friendly and efficient expense tracking solution with the following key features:

Animal Planet — *HTML, CSS, Javascript, PHP, MySql*
When individuals need to step out for various reasons, they often make thoughtful arrangements for their beloved pets, which may include ensuring that their pets are up-to-date with vaccinations, maintaining their grooming routines, and providing a comfortable environment in their absence.

CERTIFICATIONS

- Full-stack web development - **Udemy**

HONORS & AWARDS

I earned Gold badges for Problem Solving and SQL on Hackerrank.
